Date: 31 March 2021

Chief Executives, Designated Representatives and GHG Managers, Registered Persons under the Carbon Pricing Act

Dear Sir/Madam,

REPORTABLE FACILITIES TO REPORT HIGH SULPHUR DIESEL AS RECKONABLE EMISSIONS FROM 2021 UNDER THE CARBON PRICING ACT

1 This circular seeks to inform you of an amendment to the Carbon Pricing Act 2018.

2 The *Gazette* notification on the Carbon Pricing Act 2018 (Amendment of Second Schedule) Order 2021 was published on 16 March 2021 (refer to link provided below).

3 With effect from 1 January 2021, greenhouse gas ("GHG") emissions arising from the use of diesel with sulphur content of more than 10ppm ("high sulphur diesel fuels") which are not subject to excise duty are reckonable GHG emissions under the Carbon Pricing Act.

4 Should your business facility use or begin to use high sulphur diesel fuels from 1 Jan 2021, your business facility is required to report the GHG emissions from high sulphur diesel fuels as reckonable GHG emissions for the reporting period 2021 onwards.

5 The GHG Measurement and Reporting (M&R) guidelines have been updated to reflect the amendment to the Carbon Pricing Act.

6 Should you require further clarifications, please contact us at NEA EEPC Centre at nea_eepc@nea.gov.sg or 6731 9871. Thank you.
