Date: 26 Dec 2023

Chief Executives, Designated Representatives and GHG Managers, Registered Persons under the Carbon Pricing Act

Dear Sir/Madam,

UPDATES TO DECLARATION FORMS FOR REGISTRATION & SUBMISSION UNDER CARBON PRICING ACT ("CPA") FROM 1 JAN 2024

1 To ensure that companies perform a complete and accurate assessment, NEA has updated the following declaration forms to require the endorsement of the Chief Executive and GHG Manager(s):

i) Registration: Statement of accuracy and completeness to be signed by Chief Executive

ii) Submission: Endorsement form for Monitoring Plan (MP) and Emissions Report (ER) submission to be signed by GHG Manager(s) and Chief Executive

2 The updates will take effect from 1 Jan 2024. Please refer to updated declaration forms in the EDMA system.

3 Companies from the regulated sectors[1] are also reminded of the following:

i) Register all their business facilities/sites under their operational control[2] with NEA by 30 June of year immediately following the year that the facilities/sites have attained the prescribed emissions threshold(s)[3].

---

[1] CPA regulates industrial facilities in any of the following sectors: -
(i) Manufacturing and manufacturing-related services;
(ii) Supply of electricity, gas, steam, compressed air and chilled water for air-conditioning;
(iii) Water supply, and sewage and waste management

[2] A company has operational control over a business facility if the company has the authority to introduce or implement one or more of the following for the business facility: -
(i) Operating policies;
(ii) Health and safety policies;
(iii) Environmental policies

[3] The prescribed emission thresholds are as follows: -
(i) $\geqslant$2,000 tCO_2e per calendar year. Any facility that attains this emissions threshold is required to be registered as a reportable facility under the CPA and submit an emissions report annually.
(ii) $\geqslant$ 25,000 tCO_2e per calendar year. Any facility that attains this emissions threshold is required to be registered as a taxable facility under the CPA and submit a Monitoring Plan, a verified emissions report annually and pay carbon tax for the verified emissions.

ii) Each facility/site covers business activities carried out at i) one parcel of land or ii) more than one parcel of lands if the parcels of lands are in proximity[4], or the business activities have dependency.

iii) Include all direct emissions from fuel combustion and industrial processes and product use (IPPU) within their facility/site when assessing their greenhouse (GHG) emissions.

4 Should you require further clarifications, please contact your account officers in NEA or the following officers. Thank you.

- Wong Xiao Ching (WONG_Xiao_Ching@nea.gov.sg)
- Lu Honghong (LU_Honghong@nea.gov.sg)

Yours faithfully
