NEA/HS/6.6/HS01

4 July 2025

To: Hazardous Substances Licence, Permit and Transport Approval Holders

Dear Sir/Madam

REVISION OF VALIDITY PERIODS AND FEES FOR HAZARDOUS SUBSTANCES LICENCES, PERMITS, AND TRANSPORT APPROVALS

The National Environment Agency (NEA) will be extending the validity periods of Hazardous Substances (HS) Licences, Permits, and Transport Approvals, with the aim of streamlining administrative processes for licensees and permittees, lowering business costs, and providing more certainty to businesses.

2 The validity periods of HS Licences, Permits, and Transport Approvals will be extended from the current 1 year to a period of 5 years.

i. The **5-year validity period** will apply to **new and renewal applications submitted on or after 1 Jan 2026**.
ii. The current 1-year validity period will apply to new and renewal applications submitted before 1 Jan 2026.

3 NEA is mindful of the impact on businesses of any revision to fees and will continue to keep them affordable. The extended validity period will result in lower annualised fees for new and renewal applications compared to current rates. Nevertheless, it is also necessary to revise some fees in order to bring the fees closer to full cost recovery due to factors such as increased manpower and operating costs since the last fee revision in 2021. Hence, with effect from 1 Jan 2026, the application fees will be revised as shown in Tables 1 and 2 below.

Table 1: HS Licence Fees[1]

Application Type	Current Fee	Revised Fee
New/Renewal	$525 (1-year validity)	$700 (5-year validity)
Amendment (ad-hoc)	$140	$280
Temporary Licence (valid for 3 months)	$135	$200

Table 2: HS Permit Fees

Application Type	Current Fee	Revised Fee
New/Renewal	$160 (1-year validity)	$450 (5-year validity)
Amendment (ad-hoc)	$110	$180

4 For further enquiries on the revised validity periods and fees, you may contact Mr Marvin Ong at Marvin_ONG@nea.gov.sg.

(This is a computer-generated circular and requires no signature.)

[1] NEA does not charge a separate fee for HS Transport Approval applications as it is cost recovered under the HS Licence.
