Date: 23 May 2022

Chief Executives, BCA-Registered Contractors for Air-Conditioning, Refrigeration & Ventilation Works

Dear Sir/Mdm

REMINDER FOR COMPANIES TO SEND CHILLER TECHNICIANS FOR CERTIFICATION TO COMPLY WITH UPCOMING LEGISLATIONS UNDER THE ENVIRONMENTAL PROTECTION AND MANAGEMENT ACT (EPMA)

Circulars were sent on 12 Oct 2021, 17 Feb 2022, and 29 Apr 2022 to remind **water-cooled chiller servicing companies** of the upcoming legislative requirements on installation, maintenance and decommissioning of water-cooled chillers which are regulated GHG works under the EPMA.

2 If your company has neither sent nor scheduled any of your chiller technicians for the chiller refrigerant handling technical training course[1] to attain the required certification, we strongly urge you to register with the training institute, Temasek Polytechnic, at https://www.tp.edu.sg/schools-and-courses/adult-learners/all-courses/skillsfuture-series/refrigerant-handling-for-chiller.html **by 30 Jun 2022**.

3 It is an offence under the Section 40L of EPMA for companies to carry out regulated GHG works without a certified chiller technician and valid registration[2] with NEA. Companies found to be non-compliant shall be liable on conviction to a fine not exceeding $10,000 or to imprisonment for a term not exceeding 3 months or to both.

4 NEA will be conducting enforcement checks to ensure that the above legislative requirements are complied with. NEA will not hesitate to take enforcement actions against those companies that are found to be non-compliant with the requirements.

5 To avoid enforcement checks by NEA which may be disruptive to your business, we strongly urge you to inform us before **30 Jun 2022** if your company does not carry out any water-cooled chiller works that disrupt the refrigeration system of the chiller (e.g. the evaporator, condenser, refrigerant piping, expansion valve, etc.).

6 For any clarification, please contact Ms Weng Shiya (email: Weng_Shiya@nea.gov.sg).

Yours faithfully
(Transmitted via email)

Suresh K.
Director
Carbon Mitigation Division
National Environment Agency
