

NEA Air Quality & Environmental Report 2026

1. Executive Summary

The National Environment Agency (NEA) monitors air quality across Singapore.

In 2026, the Pollutant Standards Index (PSI) remained in the Good to Moderate range.

2. Key Monitoring Stations

Key monitoring stations are located in Jurong East, Woodlands, Tampines, and Sentosa.

Main pollutants tracked include PM2.5, PM10, Ozone, and Nitrogen Dioxide.
